1. A teacher recorded the averages of her students in a stem-and-leaf plot.

| Student Averages |  |
| :---: | :---: |
| Stem | Leaf |
| 5 | 4 |
| 6 | 689 |
| 7 | 0023468 |
| 8 | 02455579 |
| 9 | 01234588 |
| 10 | 0 |
|  | Key: $812=82 \%$ |

What percent of the students have an average higher than $84 \%$ ?

Solution: $\qquad$
2. A fruit drink is $8 \%$ orange juice. Write the percent as a simplified fraction and decimal.

4. Vame the shaded region in three equivalent for ns.

Solution: $\qquad$
TEKS 6.5B

| Fraction | Decimal | Percent |
| :--- | :--- | :--- |
|  |  |  |

TEKS 6.5C

1. The table shows the ages of individuals purchasing movie tickets at the theater in a 5-minute time span.
Age of Ticket Purchasers

| 15 | 16 | 18 | 32 | 40 | 51 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 10 | 14 | 18 | 17 | 35 | 45 |
| 56 | 57 | 60 | 11 | 13 | 15 |
| 18 | 24 | 28 | 36 | 42 | 13 |

Represent the data in a histogram.

3. What is the value of the expression?

$$
8-(-3)+33 \div(-2)
$$

Solution: $\qquad$
2. Complete the prime factorization of 225 .

225

Write the prime f? to, zatiun using exponents, if needed.
s'ution: $\qquad$

TEKS 6.7A
4. Graph the points.

A $(4,2)$
$B(-4,-2)$
$C(-4,2)$
$D(4,-2)$

Which point is located 4 units to the left of the origin and 2 units below the $x$-axis?

TEKS 6.11A

1. Students recorded the number of pushups completed in a two-minute time span. The box plot shows a summary of the results.

Is the data symmetrical? $\qquad$
Identify the following.

TEKS 6.12 C
3. An inequality is shown below.

$$
x+-19 \geq
$$

The table lists possible valu, for $x$. Check yes or no if the value makes the inf quality true.

| alu | Yes | No |
| :---: | :---: | :---: |
|  |  |  |
| 25 |  |  |
| 7 |  |  |
| -8 |  |  |
| 21 |  |  |
|  |  |  |

2. Five numbers are shown below. Write the values in order from least to greatest.

$$
\begin{array}{lllll}
-\frac{7}{4} & -2 & 1 & \frac{9}{8} & 0
\end{array}
$$

$\qquad$ , $\qquad$ _ $\qquad$ , $\qquad$

TEKS 6.2D
-Bruce is a tennis player. He has worked to earn \$1,250 to purchase a tennis ball machine and racquet. The new racquet costs $\$ 120$. Use the inequality below to find how much Bruce can afford to spend on the tennis ball machine, $m$. Show the solution on the open number line.

$$
120+m \leq 1,250
$$

$\qquad$

TEKS 6.9B
13. Which point on the number line represents $5 \frac{1}{4}$ on the number line.

Select ONE location on the number line to plot the point.

14. Describe the relationship between $x$ and $y$ in the equation $y=4 x$.

Choose the correct answer from each drop-down menu to complete i e si tement.

The relationship is because the value of $y$, $\qquad$ the value of $x$.

TEKS 6.2C

$\square 4$ times
$\square 4$ more than
15. A right rectangular prism has th me ions shown.

What is the volume of the prism in cubic inches?
Enter your answer in the box.
$\square$
23. The calendar shows the high temperatures (in degrees Fahrenheit) for San Antonio, Texas during the first ten days of June 2022.

| June 2022 |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Sun | Mon | Tues | Wed | Thurs | Fri | Sat |
|  |  |  | ${ }^{1} 91^{\circ}$ | ${ }^{2} 86^{\circ}$ | ${ }^{3} 91^{\circ}$ | ${ }^{4} 93^{\circ}$ |
| ${ }^{5} 95^{\circ}$ | ${ }^{6} 95^{\circ}$ | $75^{\circ}$ | ${ }^{8} 95^{\circ}$ | ${ }^{9} 93^{\circ}$ | ${ }^{10} 95^{\circ}$ | 11 |
| 12 | ${ }^{13}$ | 14 | 15 | 16 | ${ }^{17}$ | 18 |

Which statements are supported by the data in the calendar?
Select TWO correct answers.The mode temperature was $95^{\circ} \mathrm{F}$.
$\square$ The median temperature was $94^{\circ} \mathrm{F}$.
$\square \quad$ The temperature range was $10^{\circ} \mathrm{F}$.
$\square \quad$ The mean temperature was $94^{\circ} \mathrm{F}$.
TEKS 6.12C
24. Which situation could be represf nte 1 L, the equation $17 x \leq 314.5$ ?
(A) Mary's family drovn 3, 1.5 miles to visit family. If they stopped for lunch, and spent $\$ 17$ for the mea!, how much money, $x$, does Mary's family have now?

Sevent eer stu Jents went on a field trip. Each student was given a money amount
(B) for he in The group will spend a minimum amount of $\$ 314.50$. How much is $x$, $t_{1}$ ? Sp :nding amount given to students?
(C) Macy has a budget of $\$ 314.50$. If she purchases 17 shirts at the same price per shirt, what is $x$, the maximum amount she can pay per shirt?
(D) None of the above.

TEKS 6.9C
